

8 MYTHS ABOUT BLOCKED DRAINS YOU SHOULD KNOW RIGHT NOW

A COMPLETE GUIDE!

PLUMBER IN ADELAIDE

Blocked Drains Adelaide is the most common problem and involves lots of myths some of which you might already know.

Today, we will find out what's true what's not and enlighten you on the right way to handle blocked drains.

So let's get started!

Throw Boiling Water to Unclog the Drain

Nope! Throwing a bucket full of hot water might seem working on the blocked drain but it doesn't do anything, logically. However, it may enhance your drainage but for blocked drains, it can't do anything. If hot water was the solution to your clogged drain, washing dishes with hot water would have prevented blockage.

Pouring oil in the sink will not harm

Well, pouring any liquid down the drain is a root cause of the blockage. Imagine you have poured oil inside your drain and now the entire food residue, hair, miscellaneous, dust, dirt, & various other items will get cluttered with the oil and stick to the walls of the drain. Cleaning such a drain is challenging and might include huge costs as well. Only professional [Hot Water Systems Adelaide](#) can save you in such situations.

Your Kitchen Cabinets have the Solution

This might sound unreal but pouring vinegar or baking soda down the drain will unclog a mild clogging and that too very quickly. However, this method isn't suitable for big blockage as it requires a strong and effective solution for a smooth passage of the rubbish. Therefore, kitchen items may be helpful for small blockage in a drain but not for the bigger ones.

- **Store-Bought Chemicals are the Best Option**

Such chemicals may fix the problem in the long run but affect you and the indoor on a bigger level. The chemicals may contaminate your kitchen or utensils near the sink and lead to various health risks. Also, you are going to wash your dishes in the sink and any material of such chemicals, if left behind, can be contagious. Besides, these chemicals are harmful to the environment. Therefore, it is suggested to avoid such harmful chemicals to be poured inside your drain.

- Blocked Drain Services are Expensive
- NOT TRUE.
- Many cleaning services offer quality blocked drain solutions under budget without compromising the effectiveness of the treatment.
- They also provide additional care to your drainage system so that you don't face such a problem in the future. The professionals will examine your drain and the reason behind the blockage. After that, they will suggest to you what you should avoid preventing your drain from clogging.

- Regular Toilet Cleaning Unclogs Blocked Drains
- Cleaning toilets is a regular thing and will not be much effective on drain blockage.

However, you can throw a bleaching tablet inside your drain to keep everything clean and to allow smooth passage of stuff. If you have recently get done with the drain cleaning, it's the right time to throw bleach tablets in it to maintain the cleanliness of the pipe. You can repeat this once or twice in 2-4 weeks.

- Any Plumber can Unblock Drains
 - No! Not any random plumber is suitable for your blocked drain.
-
- You need professional help with the clogged drain as they will have the right equipment and products to clean your drainage. The experts will be experienced and will have the skills to clean your blocked drain no matter what the problem is. They may also have advanced tools such as CCTV inspector to see what is sticking inside the drain. This helps to provide you the right solution. Not any nearby plumber will have the same tools and equipment set. Hence, you need to hire only licensed and certified professionals.
 - Now that you have discovered the truth, it's time for hiring the skilful and professional plumber Norwood.
