Before you search out various tricks of [bathroom renovation Moorabbin](#), we have something for you to consider in this matter.

When your bathroom is renovated, it adds value to the home, updates the style and makes your home a completely better place. Bathroom renovations are the best time that you can consider that can serve you and your family for a longer period of time.

If you are planning to spend money on a bathroom renovation, then consider any of the given ideas for your home.

► **It will improve the lighting**

When you plan for bathroom renovation, you should consider changing the lighting as it can improve the feature and functionality of your place. An advantage you can consider is a dimmer for the light. If you like the leisure bath, then you should go for artificial light. When you choose a dimmer, it will allow you to set the right mood. Moreover, you can add fixtures around the mirror to give it the best lighting when you complete your hair, makeup, shaving or doing any important work that requires lighting.

▶ **You can keep the fixture neutral**

When you select any bathroom fixture during a remodel, there will remain lots of choices. The right thing is to select the right fixture that suits your style and the overall beauty of the place. It has been said that bathroom style can get old-fashion after a certain time. But another thing is that you can give it a neutral look. Another thing is that the selection could impact the home's resale value as well. So, you need to choose something that is evergreen.

► Place window in the shower

Humidity is the biggest threat that homeowners have usually had in recent times. If your wall or ceiling is humid, it can be the reason for mould or mildew. However, you can take help from a bathroom fan that can work as a good ventilation system. When you add a window in the shower, it will help you in drawing out humidity. It can even be the worst situation if you crack it open during shower time. Also, a window will allow natural light into the bathroom, which is an aesthetic as well as a safety consideration. Also, you need not waste your energy by turning on the bathroom lights during the daytime if you have a window.

You should always remember to slope a shower window sill in the bottom down condition.

If you are planning for a **bathroom renovation Frankston**, then these ideas will perfectly suit your requirements. Try and share your thoughts.
